

Cartoning and Case Packing Machinery

For Food Processing and Packaging Environments

Product Solutions

Whether you manufacture cartoning, case erecting, case packing, case sealing or tray forming machines, the requirements are the same... faster, more reliable machines.

As the speed of your machinery increases, so does the potential for costly jams. While you are focusing on speed performance, let Altra assist you with products, such as overload clutches, sensors, and safety switches, that will enable greater line efficiency as well as fault detection and recovery.

Ease your reliability worries and buy your speed reducer from Boston Gear. Boston Gear offers the industry's greatest variety of gear drive sizes fabricated with the highest quality materials, providing strength and durability.

Boston Gear 700 Series Worm Gear Speed Reducers

Boston Gear offers the industry's largest variety of gear drive sizes, reduction ratios, shaft options and mounting styles. The 700 Series design is fabricated with the highest quality materials, providing maximum strength and durability. With millions of possible configurations, there is sure to be a 700 Series to fulfill your specific requirements.

Boston Gear Centric Clutches

Integrate Boston Gear Centric overload clutches into your machine and reduce the damage and lost productivity that can occur due to equipment jams or loading problems. Centric clutches provide a more accurate method of torque control over thousands of trips with no operator intervention.

Boston Gear 800 Series Helical Gear Drives

Boston Gear's 800 Series contains a focused selection of compact, heavy duty helical gear drives that offer long-life performance and simplified maintenance. The 800 Series provides a functional interchange for SEW Eurodrive and other European manufacturers' helical gear drives, making it uniquely practical for replacement applications.

Warner Electric Sensors and Safety Switches

Warner Electric has many years of experience in applying sensors and switches in motion control applications. Our broad range of innovative and technologically advanced non-contact sensors, industrial limit switches, and safety technology products offer our customers the exact solution to satisfy their sensing applications.

Other products for use on Cartoning and Case Packaging Machinery include:

- Motors and Drives
- Electro Clutch/Electro Brakes
- Overrunning Clutches
- Electrically Released Brakes
- Shaft Mounted Clutches
